
Guida per l'installazione

Set completo di utensili per l'installazione

iPRO™ MARKERS

www.ipromarkers.com

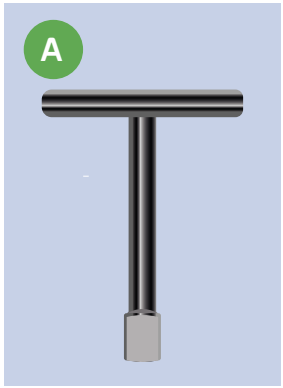
Come inserire gli iPRO Markers nel terreno

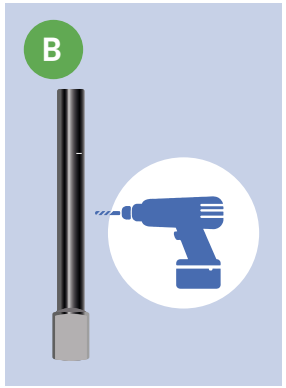
È possibile inserire gli iPRO Markers molto facilmente con l'aiuto dei nostri utensili:

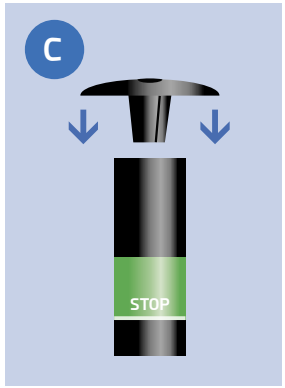
A. Chiave a T
B. Adattatore per trapano/avvitatore
C. Tubo guida

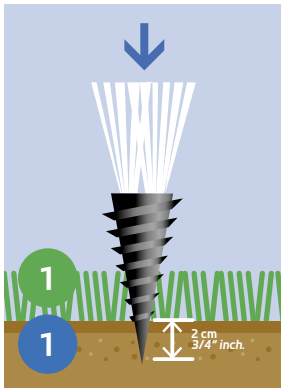
Inquadra i codici QR per guardare le video-istruzioni:

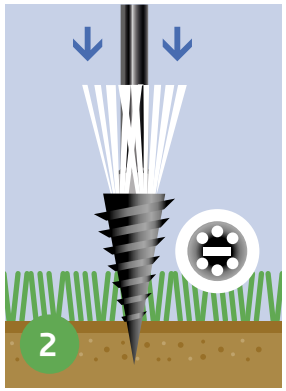
A. Chiave a T | B. Adattatore | C. Tubo guida

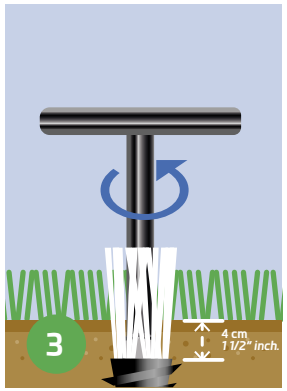






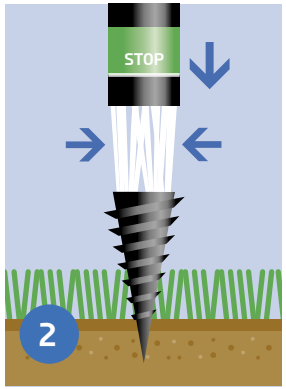


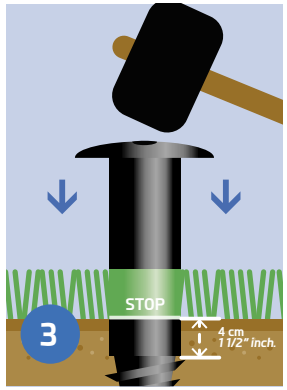




Utensile A, B, C:
1. Spingi manualmente l'iPRO 2 cm nel terreno.

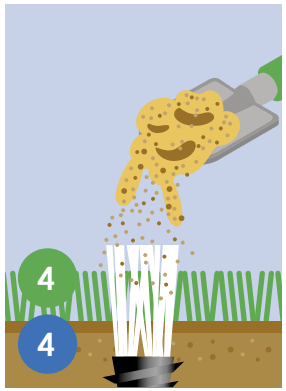
Utensile A, B:
2. Inserisci la chiave a T o l'adattatore per trapano/avvitatore nel foro dell'iPRO **3.** Ruota fino a quando sporgono 3 cm di ciuffo dal terreno.

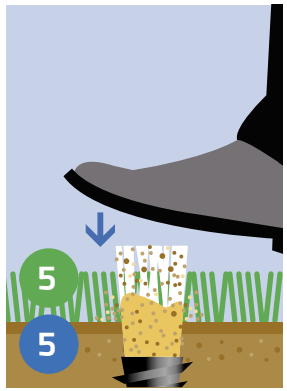




Utensile C:
2. Raccogli il ciuffo e infilalo nel tubo guida.

Utensile C:
3. Usando un martello di gomma colpisci il tubo guida e così da inserire l'iPRO nel terreno fino alla scritta STOP.





Utensile A, B, C:
4. Riempi il foro lasicato dell'iPRO con della sabbia o terriccio.

Utensile A, B, C:
5. Compatta la sabbia o il terriccio, dolcemente, con il piede o il martello di gomma.
